Professional Summary

Computer Science undergraduate with strong foundations in Data Structures and Algorithms and hands-on experience in backend development using Java, Spring Boot, and REST APIs. Built scalable systems, optimized performance, and developed real-world applications. Passionate about building efficient backend systems and solving complex problems.

Education

Sri Krishna College of Technology (SKCT), Coimbatore

2023–2027

B.E. Computer Science and Engineering

CGPA: 7.9/10

12th – 93% (2023) | 10th – 95% (2021)

Technical Skills

Languages: Java, SQL, C++, JavaScript

Frameworks: Spring Boot, Node.js, Flask, React.js

Core Concepts: REST APIs, DBMS, OOPS, Data Structures, Algorithms

Tools: Git, Postman, Swagger, MySQL, VS Code, Eclipse

Projects

Yoga Instructor Application System

- Architected role-based access control for Admin, Instructor, and Student modules.
- Engineered booking and payment workflow managing 50+ transactions.
- Optimized REST APIs reducing response latency by 30%.

Crowd Management and Risk Monitoring System

- Implemented P2PNet-based crowd density estimation.
- Built real-time alert mechanism for high-risk thresholds.

Face Detection and Attendance System

- Achieved 90%+ real-time detection accuracy using Haarcascade.
- Streamlined attendance tracking reducing manual effort by 80%.
- Built Flask backend for efficient processing.

AI-Based Study Planner

- Designed intelligent scheduling engine reducing conflicts by 40%.
- Built analytics dashboard with event-driven notification triggers.

Experience

Frontend Developer Intern – Thai Green Power Solutions, Coimbatore

Feb 2026 – Present

- Developing responsive web applications using React.js with modern UI practices.
- Built and delivered 2 complete projects with interactive UI using Three.js.
- Optimized frontend performance and improved user experience.
- Working on real-time project requirements in a stipend-based model.

Web Development Intern – CodeBind Technologies

June 2025

- Developed an Online Food Delivery System with authentication and order management.
- Improved UI responsiveness across multiple devices.

Achievements

- 1st Prize – PSG iTech Hackathon (2026)
- Solved 150+ problems on LeetCode

Languages

Tamil – Native Proficiency | English – Professional Working Proficiency

Areas of Interest

Backend Development, Scalable System Design, Distributed Systems, RESTful API Architecture

Additional Learning

- Attended E-Commerce Development Workshop at CodeBind Technologies, Coimbatore.
